

NOMBRE: Sarai Obregón

GITHUB REPOSITORY : [ <https://github.com/SaraOrz/LaboratoriosDAW.git> ]

GITHUB PAGE URL: [ <https://saraorz.github.io/LaboratoriosDAW/Lab3/index.html> ]

### Flex y Media queries

Para este laboratorio tendrás que descomprimir el archivo adjunto donde encontrarás una plantilla HTML. En este momento la aplicación no cuenta con estilos. Deberás de crear las vistas para móviles, tabletas y pantallas grandes como se muestran en las siguientes imágenes:

#### Para móviles

## The ABC Company

### A as in Apple

We take out fruit very seriously at ABC, that is why the A in ABC is for Apple. Try our new AppleBook App, the coolest new technology disrupting the fruit industry. This is the Uber of Apples!

### B as in Bail

Do you need Bail! Our new BailFace app will provide you with lawyers and bail money at the push of a button. Its the Facebook of bail bonds!

### C as in Curry

Fancy some curry! Our new HurryCurry app will provide curry cooked by Italian chefs right to your door. Its the AirBnB of curry!

Para tablets:

Utiliza media queries y Flexbox para lograr las vistas presentadas en las imágenes. Para los rangos puedes usar los siguientes sugeridos:

- Tablets : min-width: 768px y max-width 1024px
- Pantallas Grandes : min-width: 1025px

### **Entrega**

Una vez que termines el desarrollo deberás de publicar este laboratorio en un nuevo repositorio. Convierte este repositorio en un Github pages para poder ver su versión en vivo. (A veces Github puede tomar de 5-10 minutos para mostrar la versión en vivo, ten paciencia si esto ocurre).

Deberás publicar en Canvas 2 ligas:

- Liga del repositorio utilizado.
- Liga del Github page.

Tu profesor deberá poder ver el Github page y el repositorio.

**“If you try and Fail, Congratulations.  
Most People won't even try”**
